												Percent of Watchlist at New Record Highs			
												Percent of Watchlist at New Record Lows			

\* Record Highs & Lows are based on the current intra-week high and low as shown in the Current Week Range columns.

\* RSI and Momentum Regime are based on the 14-day RSI reading. The Regime is Bullish if the most recent extreme reading was over 70 and Bearish if the most recent extreme reading was below 30.

\* Green and red values in the Current Week Close column represent a weekly closing price above or below the prior week high or low.

\* Green values in the Current Week High column illustrate a new weekly high was made above the prior week high.

\* Red values in the Current Week Low column illustrate a new weekly low was made below the prior week low.

\* Percentages stated in the Percent Off High/Low columns are calculated using the 52-week high and 52-week low as the denominator and it's difference from the most recent closing price as the numerator.
