Percentage Change – 1-Month

Percentage Change – 5-Days

US Dollar Index - DXY

The US Dollar Index printed fresh 20-year highs last week. It's looking like the breakout in DXY is going to stick. A sustained rally for the dollar will likely act as a headwind for stocks.

Dollar Index - DXY

ASC G-10 Ex-US Currency Index

The G-10 Ex-US Currency Index is not making fresh lows along with new highs in the DXY. Continued selling pressure favors US dollar strength and a potential headwind for risk assets. On the flip side, if these top global currencies can carve out a tradeable low, risk assets could receive a much needed lift.

US Dollar Index

Short Term Percent Bullish

Intermediate Term Percent Bullish

Long Term Percent Bullish

Euro - EUR/USD

EUR/USD has taken out its former 2016 lows to reach parity for the first time since late 2002. We want to be short if and only if it's below ~1.0350, targeting .90.

Pound Sterling GBP/USD

GBP/USD has closed below its December 2021 pivot low. Our outlook is lower toward the 2020 lows ~1.1425. We could witness a mean reversion squeeze as long as it's above 1.1950.

2008	2010	2012	2014	2016	2018	2020	2022	2024	20
------	------	------	------	------	------	------	------	------	----

Euro-Sterling EUR/GBP

The EUR/GBP continues to chop around .8450. Our outlook is higher toward ~.9405 as long as it's above that level.

Dollar-Swiss USD/CHF

The USD/CHF ripped to new multi-year highs, reaching parity for the first time since late 2019. As long as it's above .9475, our bias is higher toward 1.03.

Swiss Franc Futures

Dollar-Canada USD/CAD

USD/CAD is stuck within an upward sloping consolidation. This is a great example of why we prefer horizontal boundaries as recent breakouts have led to further morphing. For now, our bias is neutral.

Canadian Dollar Futures

The Canadian dollar has been resilient against USD strength. If and only if it's above .7750, we like Canadian dollar futures long back toward .83. For now, our outlook is neutral.

Australian-Dollar AUD/USD

The AUD/USD is attempting to recomplete a multi-year top. Our outlook is lower toward .55 as long as it's below .70.

A bearish divergence in the CAD\$ led the AUD\$ lower in early 2018. And the AUD\$ provided warning signs of a near-term top in the CAD\$ last spring. Will these currencies trend lower during the second half after lower highs in the CAD\$ suggested weakness?

New Zealand-Dollar NZD/USD

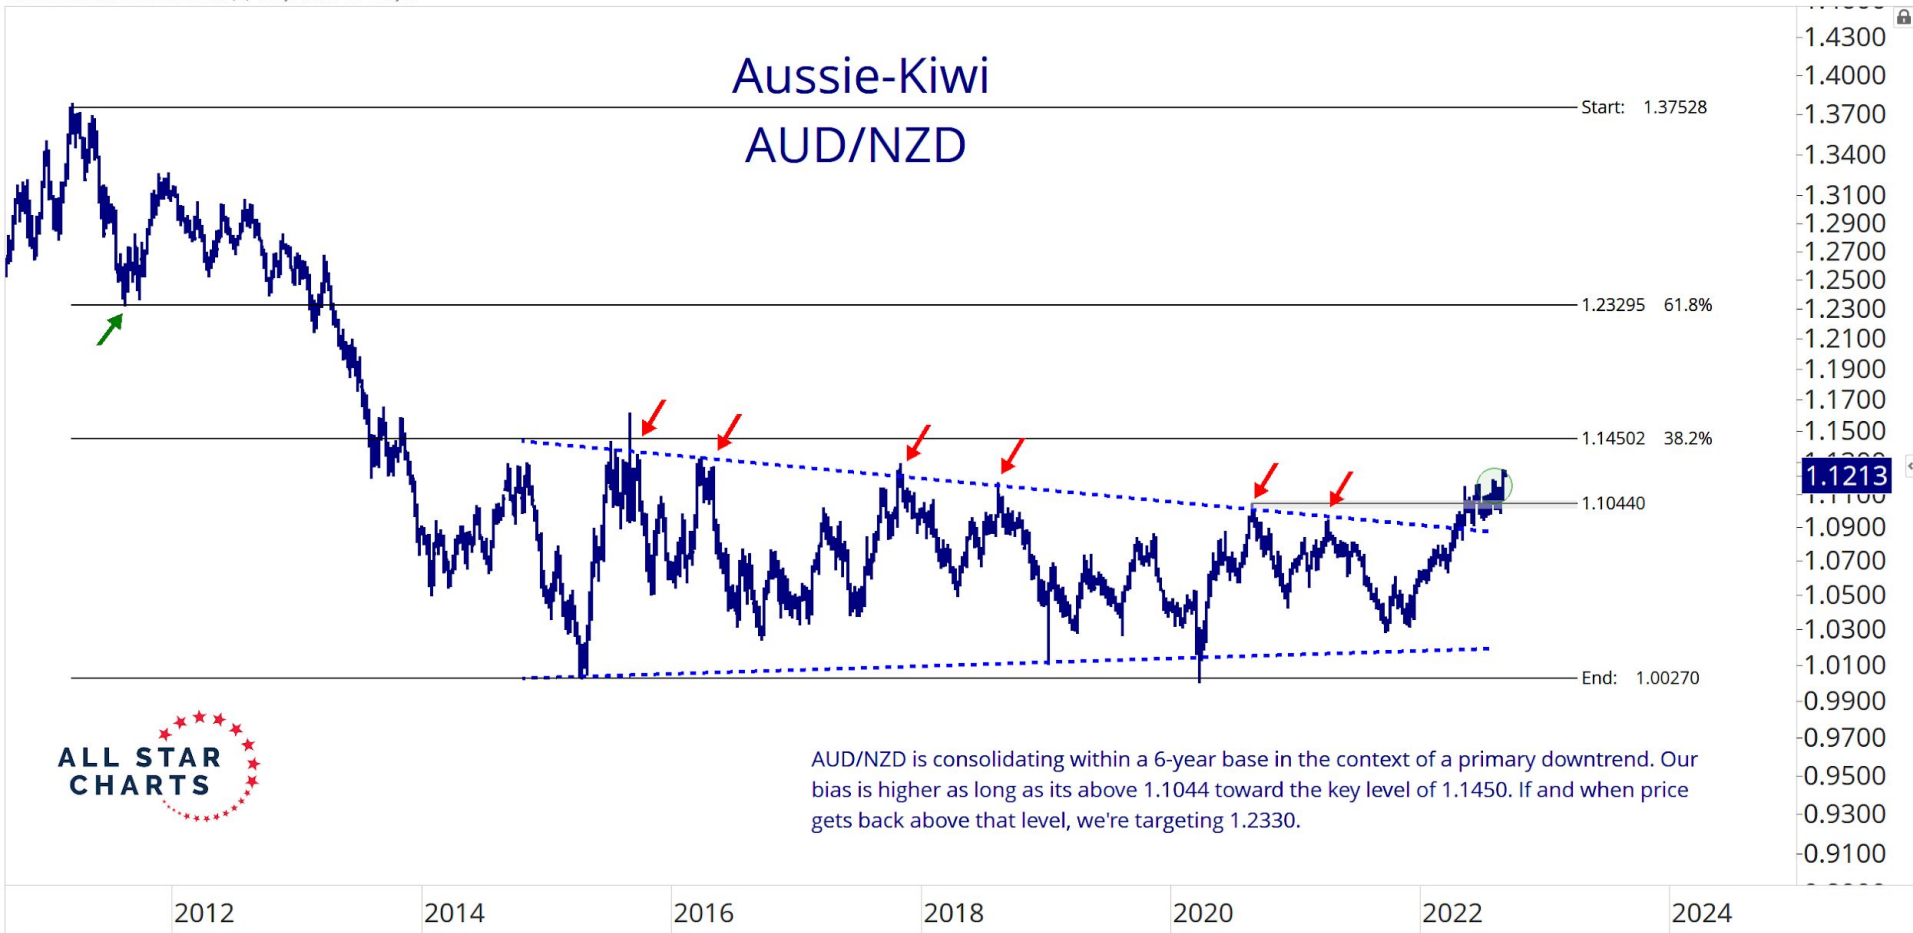

NZD/USD is carving out a multi-year base below a significant amount of overhead supply. As long as it's below the critical .6425 level, our bias is lower toward .55.

Aussie-Kiwi AUD/NZD

AUD/NZD is consolidating within a 6-year base in the context of a primary downtrend. Our bias is higher as long as its above 1.1044 toward the key level of 1.1450. If and when price gets back above that level, we're targeting 1.2330.

2022

2024

Dollar-Swedish Krona USD/SEK

USD/SEK has taken out a critical level at 10.50, breaking to fresh decade highs. Our bias is higher if and only if it's above that key level with a target near its former 2001 highs ~11.00.

Dollar-Norwegian Krone USD/NOK

Norwegian Krone-Swedish Krona NOK/SEK

NOK/SEK prints fresh multi-month highs. Our outlook is higher if and only if it's above 1.0265 with a target of 1.1343.

ALL STAR
CHARTS

Japanese Yen USD/JPY

The USD/JPY completed a multi-year base, printing its highest level since May 2002. We want to stay long the USD/JPY cross above the 2015 highs ~125.85 with an initial upside objective ~142.

Aussie-Yen AUD/JPY

The AUD/JPY has chopped sideways for most of 2022 after it broke out of a 12-month range. If it's above 88.50 we want to be long, targeting 103.50.

Euro-Yen EUR/JPY

Start: 170.030

The EUR/JPY continues to find resistance at a key retracement level ~141. If and when it reclaims that critical level, we like it long toward 170 over longer timeframes.

Sterling-Yen GBP/JPY

Our initial target ~167.94 has been hit. Our bias is neutral until a decisive break above our previous target. If and when the GBP/JPY takes out that level our next upside objective is ~200.

Emerging Currency Fund CEW

The Emerging Currency Fund \$CEW is stuck below resistance near 19 as a decade-long downtrend line rejects price. Below this level and the bias is neutral at best. Above 19 and we want to be buyers with an initial target of 20.75.

Dollar-Brazilian Real USD/BRL

Dollar-Chilean Peso USD/CLP

Dollar-Mexican Peso USD/MXN

Dollar-Russian Ruble USD/RUB

The USD/RUB is rebounding higher after falling back below its 2018 lows ~55.40. Our bias is currently neutral. If and when it reclaims the ~67 level we like it long targeting ~86.

Dollar-Indian Rupee USD/INR

The USD/INR corrects after a strong rally to new all-times highs. As long as it's above 75.81 we want to be long with a target of 86.70. We have no business trading the USD/INR from the long side on a move back within its prior range.

Dollar-Korean Won USD/KRW

USD/KRW hit our target after completing a decade-long base. Our bias is now neutral. If and when it reclaims the 1,350 level, we like it long toward 1,570.

Dollar-South African Rand USD/ZAR

USD/ZAR is trending higher. Our outlook is toward ~18.95 if and only if it's above 15.64.

Dollar-Thai Baht USD/THB

The USD/THB has put in a failed breakout. Our bias is neutral. If and when it reclaims 36.50, we like it long toward 40.50.

Dollar-Singapore Dollar USD/SGD

USD/SGD is back above a critical level after failing to hold multi-year highs last month. If it's above 1.3950, we're long with a target ~1.4550.

2018

2020

2022

Dollar-Chinese Renminbi Yuan USD/CNY

The USD/CNY has broken above its May pivot highs to print fresh multi-year highs. As long as it's above those former highs, we're long the USD/CNH with an upside objective ~7.17.

Petrocurrency Index Ex-Ruble

*CAD/USD - Canadian Dollar
BRL/USD - Brazilian Real
NOK/USD - Norwegian Krone
MXN/USD - Mexican Peso

EW Commodity Currency Index

- *Canadian Dollar
- Australian Dollar
- Norwegian Krone
- New Zealand Dollar
- Mexican Peso
- Brazilian Real
- Chilean Peso
- South African Rand
- Chinese Yuan

Our Equal-Weight Commodity Currency Index is forming a potential reversal pattern below its former 2018 highs. A sustained move higher supports the rally in commodities and puts pressure on the current USD rally. For now it's trending lower.

EM Commodity Currency Index

- *Mexican Peso
- Brazilian Real
- Chilean Peso
- South African Rand

Our Emerging Market Commodity Currency Index is carving out a base below a critical level of former support turned resistance. An upside resolution above this key level bodes well for commodities and the economies that benefit from their natural resources.
